

Corporate Social Responsibility Statement

As a socially and environmentally responsible business, Paul Y. Engineering constantly strives to incorporate sustainability into our business values and operations. We have established the following policies to meet our responsibilities to the society:

Corporate Governance

We place strong emphasis in sound internal control, risk-assessment with prudent management mechanism and transparency to our shareholders and the public.

Quality Management

We employ sustainable business practices in delivering high quality products and services to our customers while honoring our commitment to the long-term interests of the communities.

Staff Development

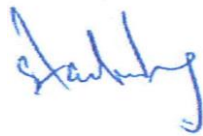

We provide safe and healthy working environments, professional training opportunities and equal opportunities to our people.

Community Investment

We actively participate in the social welfare initiatives in three key areas: education, charity and community service.

Green Environment

We strive for a greener future by adopting eco-friendly practices of our operations and are committed to maintaining resource-efficient and environmentally- responsible dealings with our business associates and local communities.

Wong Kam Cheong, Stanley
Executive Director & Chief Executive Officer
